Offender Focused Domestic Violence Initiative

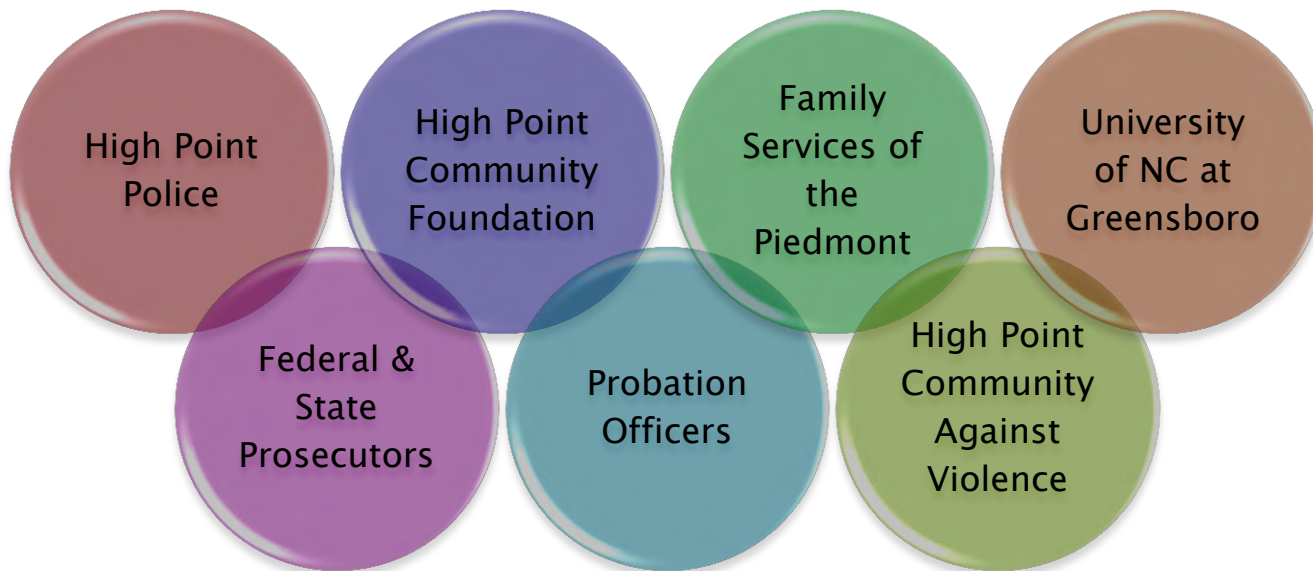

“Are The Offenders Resisting Our Best Efforts?”

Statement of Purpose

The High Point Police Department in partnership with researchers, practitioners, prosecutors, and community; will develop, implement and evaluate a focused deterrence initiative targeted at the chronic domestic violence offender to reduce domestic violence calls, reported assaults, injuries and deaths.

Theory and Concepts

- ▶ “Offender focused” versus “Victim focused”
- ▶ Traditional approaches have been strongly victim-focused, with a heavy emphasis on helping victims avoid patterns of intimacy with abusers and to physically remove themselves from abusive settings
- ▶ Not enough attention has been paid to holding the offender accountable
- ▶ The belief that domestic violence is qualitatively different than other violence; is not supported by analysis of offender criminal histories
- ▶ The chronic DV offender tends to have extensive criminal histories that include both domestic and non-domestic violence

Theory and Concepts Continued...

- ▶ The chronic DV offender is exposed to sanctions because of their pattern of criminal behavior
- ▶ Minorities and low income families are disproportionately impacted by DV, especially for DV related homicides
- ▶ Risk to victims must be minimized
- ▶ There are persistent misunderstandings surrounding offenders, victims, law enforcement and courts

Impact on High Point Police Department

- ▶ HPPD officers respond to more than 5,000 DV calls per year; 5,352 in 2010
- ▶ Our average on scene time is 26 min, times 2 officers = 6,472 hours on DV calls last year
- ▶ Between 2004–2008; 16 homicides were DV related, that was 32% of all homicides
- ▶ Number 1 most dangerous call to handle for officers
- ▶ Often requires use of force to make arrests

Facts, Myths & Misunderstandings

- ½ of the women do not believe their partner will kill them
 - Low threat assessment
- 23.6 % of women report being a DV in their lifetime
- ½ of DV assaults result in injury
 - 2 million of the 4.8 million DV victims were injured
- 1 of every 5 women killed had been to the ER within the past year

Facts, Myths & Misunderstandings

▶ Myths

1. She can't leave him because he is the breadwinner
2. DV is special violence that the Justice System cannot control
3. DV offender must be "treated"
4. If I call Social Services will take my kids away
5. If I call I will loose my public housing

▶ Reality

1. Majority are unemployed
2. DV offenders have on average 10 charges including violence other than DV
3. When Psychoeducational and cognitive-behavioral treatments applied only 5% of women less likely to be re-victimized
4. Our experience tells us this is not true
5. Not true

This project was supported by Grant #2009-D1-BX-0835 from the Department of Justice, EJAO9 Edward Byrne Memorial Justice Assistance Grant.

- UNCG researchers looked at ten years of data (2000–2010)
- Data came from AOC, RMS Crimeview, 50B and CAD
- This was original research

To answer five questions about DV in High Point:

1. What are the typical crimes that a DV offender commits? Additionally, are there different types of DV offenders (varying degrees of severity)? If so, can they be grouped into different classes?
2. What is the timeframe for progression from a non DV-related crime to a DV-related crime?
3. Is there a difference between DV offenders charged versus those who have a 50B filed against them?
4. Using geographic information systems mapping, are there hot spots of domestic violence in High Point? What are the geographic variations in density and location of domestic offenses?
5. Is there a difference between DV offenders who have been called in to the repeat violent offender call-in system for other crimes and those who have not?

- 1 Property

Strategic Intervention

1. Identify repeat offenders early and put them on notice that behavior will no longer be tolerated
2. Take advantage of low level contacts with DV offenders
3. Identification of levers and actual predictable consequences for future acts of domestic violence
4. Design a special sanction regime for those who reoffend
5. Select a demonstration group comprised of the most dangerous offenders for prosecution as examples to other levels of offenders

Strategic Intervention Continued...

6. Direct face-to-face communication of law enforcement and community moral voice message
7. Creation of an enhanced system of tracking/case management for police, probation and prosecutors
8. Increase sanctions incrementally when the DV offender does not respond, ramp it up fast
9. Provide information to victims, about the offenders and their risks
10. Identification and engagement of sponsors for the victim and the offender (proximity informants, cocooning)
11. Provide/coordinate help for the victims

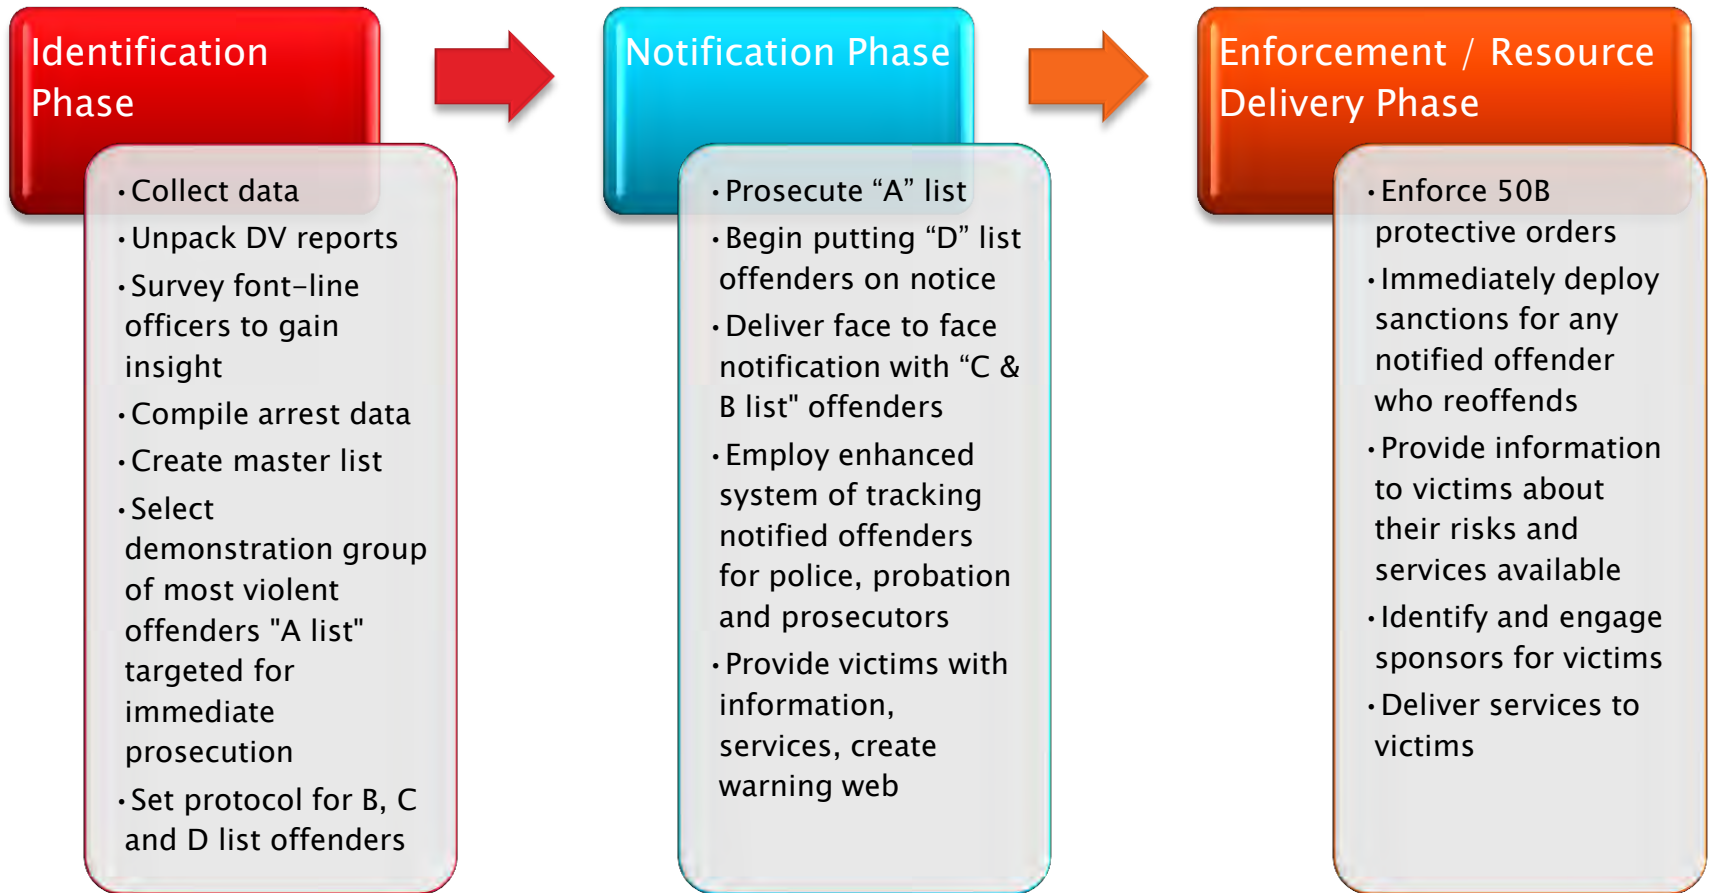

Steps to Implementation

1. Clearly define the problem
2. Collect data to identify offenders
3. Review incidents
4. Organize services
5. Organize the community “moral voice”
6. Face to face notification
7. Deliver sanctions or service
8. Evaluate, measure effectiveness, make adjustments
